SUBSCRIPTION

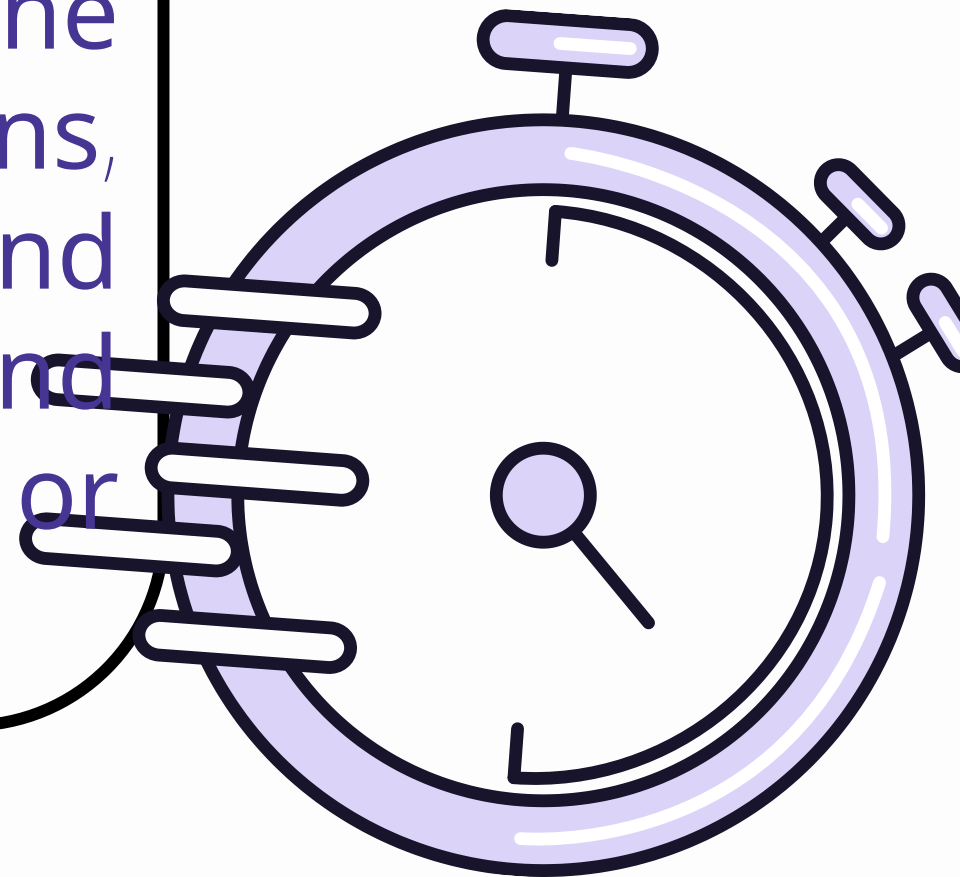

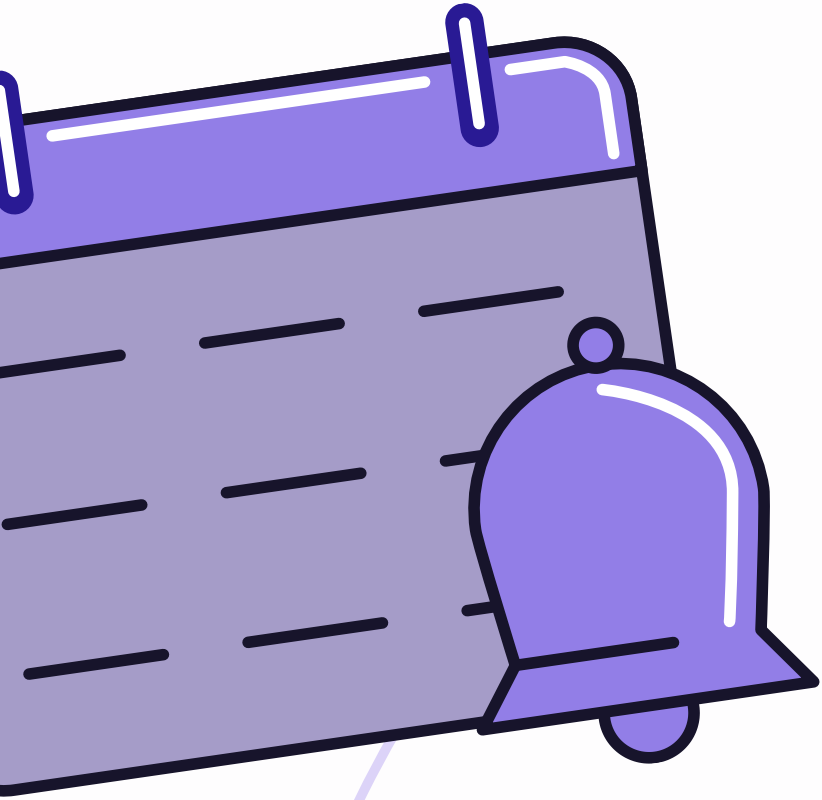

TRACKER

CAPSTONE2

OVERVIEW

The Subscription Tracker System is a smart platform designed to help users manage and track all their subscriptions in one place, including entertainment, education, gym memberships, and digital services. The system allows users to add subscriptions, monitor renewal and expiration dates, and receive automatic notifications via email and WhatsApp to avoid missed payments or unwanted renewals.

FEATURES

Subscription expense analysis.

Subscription categorization by type.

Cost-saving recommendations using OpenAI API integration.

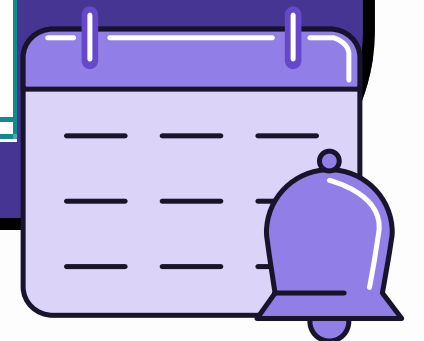

Managing mutual subscriptions with a group of people

Automatic reminders before subscription expiration.

Detection of duplicate or high-cost subscriptions.
